Dear Mother and Dad

I guess that I am going to be writing more letters to you than you are to me if you don't watch out. There isn't much more school left and then I'll be home with my wife.

By the way, how did you like my Marion? isn't she a pretty nice girl? Yes, of course. Well to get back to business.

Seein' as how there ain't much more school and as how commencement is comin' on pretty soon would it be possible to have me come home the weekend after this one and bring the car back for the last week? A lot of the best things of the year are then.

For instance the Senior Ball, the class picnic and a lot of things like that

I think that I was pretty careful and level headed when I had the car the other time and that means a lot. I would help pay for the gas when I get home and working. If you will let me, write and let me know so that I can make some plans with Marion as she will have to know also. I am older now and can take care of myself better than when I was a little boy. Also could I have a little more dough this last few weeks.

I am learning to drive pretty good now and need some money for dances and everyone is stepping out at this time of year more than usual. PLEEZE say yes to this for me and I will see that everything is O.K. I must close and go to bed but I will expect a good answer soon, if possible. Marion sends her love to the land.

Sore "Budge"
P.S. send some clean cloths if I have any and my other pair of pants.

Dear Mother

I just got back from Craftsburg where I stayed with Marion's folks over the weekend. Her parents were very nice to me. Her mother looks a lot like you and is, therefore, very good looking. I was in Barre, Friday night and went to the pictures with Dad. Then early Saturday morning I took the car to Craftsburg and then back to Barre Sunday afternoon. I did not know what to do about sending you something for Mother's day as you were not at home and I didn't know when you would be. I hope you don't think that I forgot all about that. I probably won't be coming home until vacation now but that is not very

far off now. Is everything O.K.
down there. Give aunty my love and
don't forget Merrill and Jimmy too.

You will probably be coming home
sometime this week, won't you? The
clock just struck nine, and I have some
more English and French to prepare for
tomorrow so I think I'll close now.

Much Love

Budge

P.S. - Never mind, I forgot what I
wanted to write.

B.S.
